Founded in Montréal in 1959, LaSalle College is the largest private college of public interest in the country.

Located in the heart of downtown Laval\*, LaSalle College is the largest bilingual college in North America.

LaSalle College is proud to offer high-quality education that responds to the needs of the labour market and individual development in a globalized context. The talent of its students has been recognized on numerous occasions in various competitions.

\* Not all programs are offered at the Laval campus.

## A diploma in demand

LaSalle College offers two diplomas recognized by the *ministère de l'Enseignement supérieur* of Québec (MES):

- Diploma of Collegial Studies (DCS)
- Attestation of Collegial Studies (ACS)

## Study in English or in French

All our programs are offered in English or in French.

## Why LaSalle College?

- Benefit from the practical expertise of our teachers and learn from recognized professionals in their fields.
- Get training that meets the current demands of the job market.
- Access a wide range of student services and resources.
- Take advantage of our Career Services to help you enter the world of work.
- Be part of LCI Education.
- Participate in various prestigious competitions.
- Develop entrepreneurial skills.

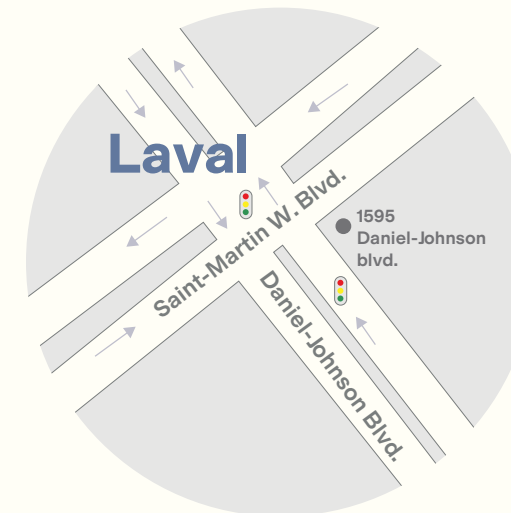

# OUR LAVAL CAMPUS

Our Laval campus, located in the heart of the action just a few steps from the Centropolis, is an interesting option, especially for those living on the North Shore of Montréal.

- Avoid traffic and save time
- Enjoy the same services as in Montréal
- Thrive on a campus designed for people
- Receive more personalized services
- Prepare yourself for North Shore jobs, on the North Shore
- Benefit from smaller cohorts
- Enjoy free parking
- And much more!

## Laval Campus

1595 Daniel-Johnson Blvd.  
Laval (Québec) H7V 4C2  
514 939-2006, ext. 4916  
📍 Montmorency

## Our programs at the Laval campus

- DCS | Interior Design
- DCS | Computer Science Technology - Profile in Programming  
Profile in Video Game Programming
- DCS | Administration and Management Technology - Profile in Management  
Profile in Accounting

ELIGIBLE FOR THE QUÉBEC PERSPECTIVE SCHOLARSHIP

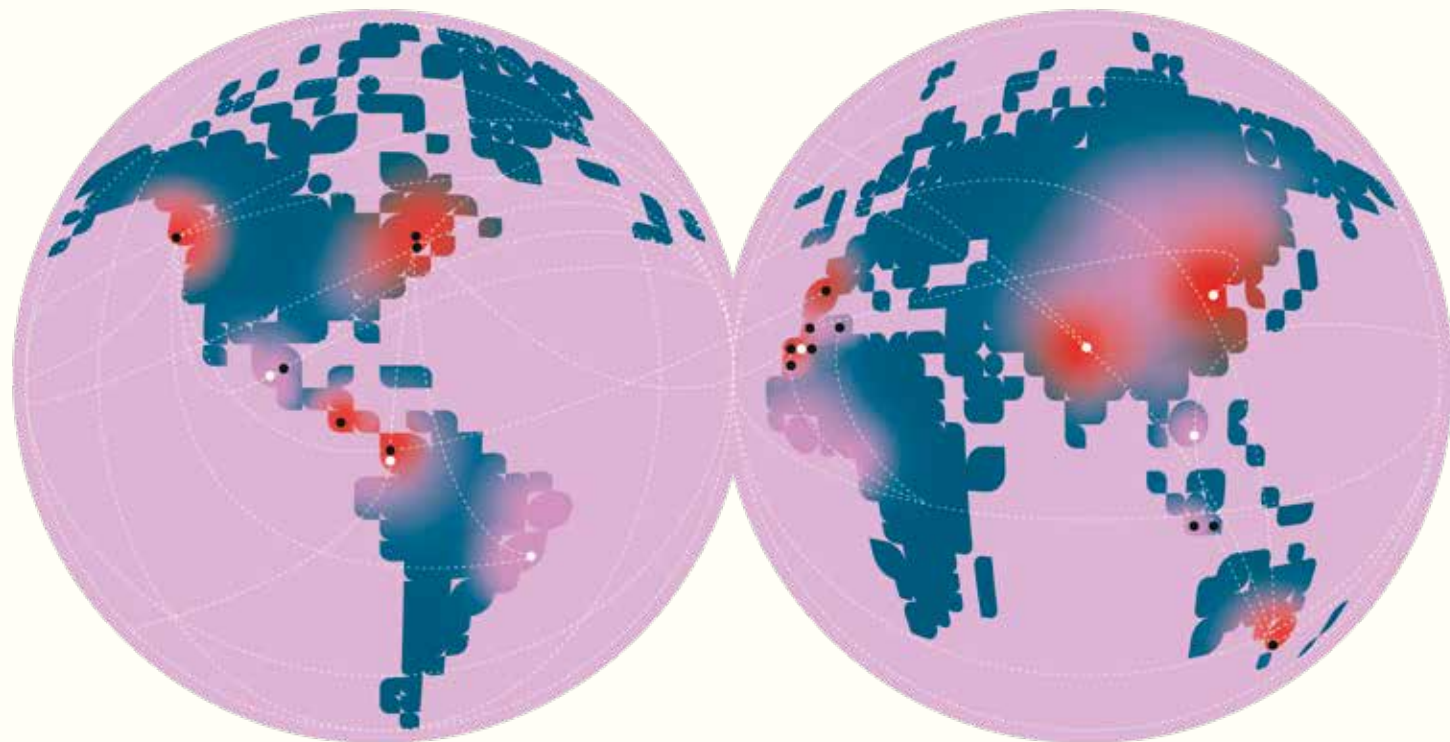

COMING IN FALL 2025

Discover the campus:

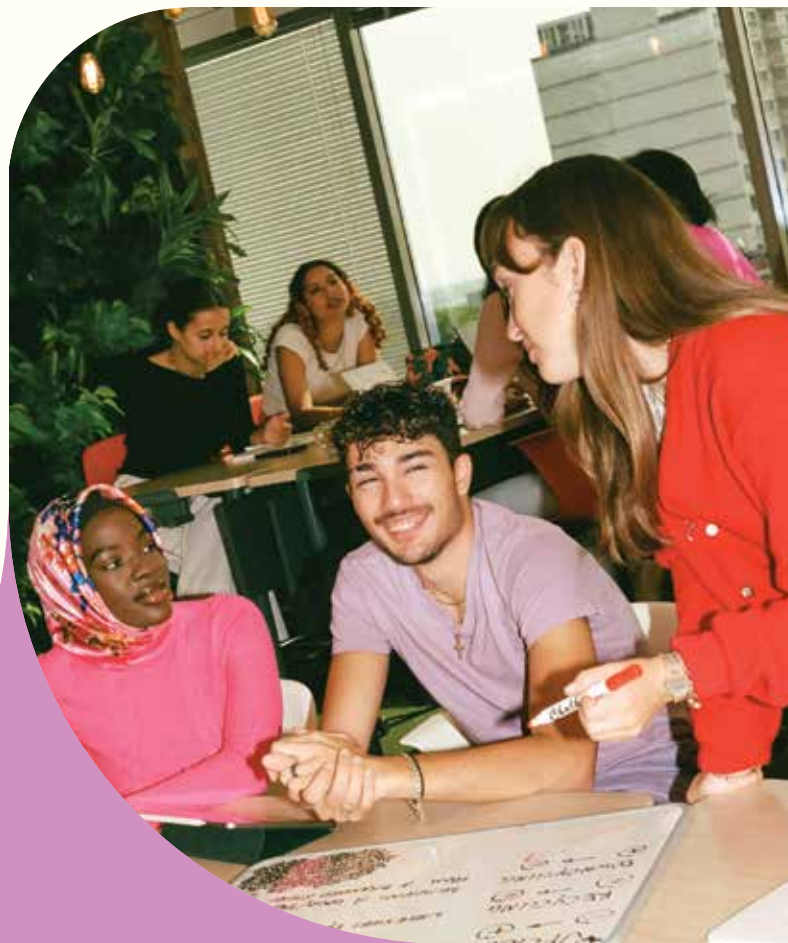

# The World is Your Classroom

## Why choose LCI Education?

A proud member of the LCI Education community, LaSalle College is one of 12 institutions of higher learning on five continents, helping to educate more than 20,000 learners around the world every year.

- Experience live learning opportunities.
- Acquire entrepreneurial skills while learning to embrace your unique role as a global citizen.
- Benefit from a unique online learning experience thanks to cutting-edge technologies.
- Take advantage of a mobility opportunity for one semester or pursue your higher education in destinations such as Barcelona, Melbourne, Vancouver, Bogota, Monterrey, Tunis, Casablanca, or Jakarta.

## Student life

Between classes, enjoy a vibrant student life!

Take part in many activities and outings:

- Wellness days
- VIP evenings at La Ronde
- Guided tours of Montréal
- Video game zone
- Private terrace at Igloofest
- And much more!

Discover the bustling atmosphere within the walls of the College through the Student Affairs Service!

Catch the excitement year-round with lively events and activities at the mezzanine and Student Hub!

Here's what awaits you:

## AGEL, a dynamic student association

The main mission of the AGEL (Association générale des étudiants du Collège LaSalle) is to listen to the needs of the student community, organize and lead activities, and help members interested in planning and hosting their own events.

# Financial aid

## Québec Government Loans and Bursaries

Our full-time students can apply for financial assistance through the Québec Loans and Bursaries Program.

## Québec Perspective Scholarships

Each student enrolled full-time at LaSalle College in one of the eligible DCS programs will receive \$1,500 for each successful semester (for a maximum total of \$9,000 for 3 years).

### Eligible programs:

- Computer Science Technology – Profile in Programming
- Computer Science Technology – Profile in Video Game Programming
- Computer Science Technology – Profile in Network and Security Management
- Early Childhood Education
- Special Care Counselling

# Study at LaSalle College, at public CEGEP prices!

## Enroll in one of our pre-university programs, and take advantage of a special rate of \$300 per semester.

- DCS in Arts, Literature and Communication - Option in Arts
- DCS in Arts, Literature and Communication - Option in Media
- DCS in Social Sciences

### For More Information:

Help shape the future and development of little ones as part of our DCS training in Early Childhood Education. Captivate children 0-12 years old and become a passionate and attentive educator in a daycare environment.

Meet children's basic, psychological, and educational needs while partnering with their parents.

### Career Prospects

Driven by the increasing number of preschool-age children and government commitments to create new subsidized spaces and recruitment measures, employment opportunities are very favourable.

According to the Canadian Government, Childhood Educators are crucial for the economy, especially in Québec.

To address high demand, "Opération main-d'œuvre" was launched in 2021, aiming to boost learners enrollment in this field.

### Career Fields

Early Childhood Educators can work in different environments:

- Early Childhood Centers, daycares, and home daycare services,
- School daycare services,
- Coordinator offices,
- Drop-in daycare centers.

### Opportunities

Our unique approach incorporates real-world experience with classroom learning for a hands-on, practical education.

- Collaborate with active industry professionals;
- Sharpen skills in a practical setting;
- Observe real interaction between professionals and children at our very own daycare centre.

### Cutting-edge Facilities and Equipment

Experiment with cutting-edge, industry-standard equipment, software, and technology in our advanced facilities, including:

- FLEX classrooms,
- Active learning classrooms,
- Mini-Lab,
- LaSalle des petits Daycare,
- And many others!

Actively participate and collaborate with teachers using these specialized facilities, boosting your motivation and confidence.

### Diploma and Accreditation

This Diploma of College Studies (DCS) is approved by the ministère de l'Enseignement supérieur de Québec and is internationally recognized.

Holders of a Diploma of College Studies (DCS) can pursue university studies or enter the workforce directly.

### Work Experience

Get sought-after practical experience with our Career Service, open-doors daycare centre, and Work-Study Program (WSP), which incorporates two paid internships into your program.

Our Early Childhood Education program also includes three internships as part as the curriculum:

- Observation and Introduction (90 hours),
- Involvement (210 hours),
- Intervention (330 hours).

### Tuition

Estimate the cost of your studies in 4 easy steps.

Build a meaningful career from your passion as a special care counsellor providing professional and emotional support. The DCS in Special Care Counselling prepares you for appropriate interventions and teaches you to work with a range of professionals through hands-on workshops and professional internships.

### Career Prospects

Québec's outlook in this field is promising. The "Opération main-d'œuvre" was launched in 2021 due to high demand.

According to the Government of Québec, the province was ranked 5<sup>th</sup> for future prospects, with an 85% placement rate.

Québec is also expecting full-time job openings due to retiring professionals.

### Career Fields

Special Care Counsellors can work in different environments:

- Custodial care and rehabilitation centres;
- Regular or specialized schools;
- Group and youth homes;
- Public (government) organizations: health and social services (youth centers, CLSCs, hospitals, CHSLDs, etc.);
- Education (regular and specialized schools).

Explore the fascinating art of creating your own video game universe with this DCS in Computer Science Technology – Video Game Programming. Using the industry’s leading programming tools (Unity, Unreal, C/C++/C#, Gameplay), this video game development course will teach you essential programming skills.

Developed with some of the world’s biggest video game studios, this video game programmer training offers you the necessary knowledge to secure a top position in the industry.

### Career Prospects

Montréal is a thriving video game industry hub with a pressing need for game programmers. Job Bank data shows high demand surpassing supply.

In fact, a very high demand in this field prompted Québec's "Opération main-d'œuvre" in 2021.

### Career Fields

- Video Game Developer (Game Designer, Application Quality Assurance, Engine Programmer (Unity and Unreal), C/C++/C#, Gameplay, Animation, Game Tester and 3D Designer);
- Object-oriented Developer (Object-oriented Application Development (.Net, Java, C++) and Application Quality Assurance);
- IT Professional (IT Advisor, User Interface Designer, Application Tester and IT Trainer).

### Opportunities

Our unique approach incorporates real-world experience with classroom learning for a hands-on, practical education.

- Collaborate with active industry professionals;
- Sharpen skills in a practical setting;
- Create a portfolio tailored to your career objectives;
- Join our computer club to maintain connections with companies and to attend several events and workshops.

### Cutting-edge Facilities and Equipment

Experiment with industry-standard equipment, software, and technology in our advanced facilities, including:

- FLEX classrooms,
- Active learning classrooms,
- Fully equipped computer lab,
- And many others!

Actively participate and collaborate with teachers using these specialized facilities, boosting your motivation and confidence.

### Diplôme et accréditation

Reconnu à l'international, ce Diplôme d'études collégiales (DEC) est accrédité par le ministère de l'Enseignement supérieur du Québec.

Les détenteurs d'un Diplôme d'études collégiales (DEC) peuvent poursuivre des études universitaires ou intégrer directement le marché du travail.

### Work Experience

Get sought-after practical experience with our Career Service and our **Work-Study Program (WSP)**, which incorporates **two paid internships** into your program.

Our **Computer Science Technology - Video Game Programming program** also includes a **525-hour internship** as part of the curriculum.

### Tuition

Estimate the cost of your studies in 4 easy steps.

Bring characters to life by weaving their story with fabrics. Create unforgettable garments reflecting the story, the place, the time, and, above all, the character. Spark your creativity by specializing in costume design for cinema and television from the 3rd year of your DCS program in Fashion Design. An exciting career awaits you in film, theater, television, or the circus.

### Career Prospects

Montréal ranks among the top 10 locations for filmmakers to establish their careers, as noted by the Québec Film and Television Council (QFTC).

This achievement is attributed to exceptional talent, innovative methods, diverse filming spots, and a high quality of life in Québec.

Additionally, the globally acclaimed MELS studios, featuring soundstages and a team of seasoned experts, excel as a leading provider of film and television services in Canada.

### Career Fields

You can work in television, cinema, the circus, on shows, or even for magazines as a:

- Costume Designer,
- Fashion Coordinator,
- Prop Master.

### Opportunities

Our unique approach incorporates real-world experience with classroom learning for a hands-on, practical education.

- Collaborate with active industry professionals;
- Sharpen skills in a practical setting;
- Create a portfolio tailored to your career objectives.

### Cutting-edge Facilities and Equipment

Experiment with materials, patterns, and designs using cutting-edge, industry-standard equipment, software, and technology in our advanced facilities, including:

- Clothing technology laboratory equipped with:
  - Sublimation printing equipment,
  - Specialized machines for shoes and leather accessories (skiver, walking foot, swivel arm, post bed),
  - Seam sealer (for waterproof seams),
  - Flatlock (for seams on stretch fabrics),
- Patronage, drawing, and cutting room (open to students outside class hours),
- Fully equipped photo studio,
- FLEX classrooms,
- Active learning classrooms,
- And many others!

### Diploma and Accreditation

This Diploma of College Studies (DCS) is accredited by the ministère de l'Enseignement supérieur of Québec and is internationally recognized.

Holders of a Diploma of College Studies (DCS) can pursue university studies or enter the workforce directly.

### Work Experience

Get sought-after practical experience with our Career Service and our **Work-Study Program (WSP), which incorporates two paid internships** into your program.

Our Fashion Design - Costume for Cinema and Television program also includes **120-hour internship or a business start-up project** as part of the curriculum.

### Tuition and Aid

Estimate the cost of your studies in 4 easy steps.

### Admissions Criteria

Exceptions to these admission criteria may be applied.

Every application is reviewed by the College.

To be eligible for acceptance into this program, applicants are generally required to meet one of the following criteria:

- Secondary School Diploma (SSD).
- Diploma of Vocational Studies (DVS) with completion of:
  - Language of Instruction from Secondary 5
  - Second Language from Secondary 5,
  - Mathematics from Secondary 4.
- Equivalent education or an instruction deemed sufficient.

### List of Courses

Diploma of College Studies (DCS) programs consist of:

- General education courses common to all programs,
- General education courses specific to the program\*,
- Complementary general education courses.

### General Education Courses

College-level institutions emphasize general education that focuses on core cultural knowledge, skill development, responsible citizenship, and shared cultural heritage.

Alumni have a well-rounded skill set and general knowledge that is valued in the workplace.

- 3 Physical Education courses (90h)
- 3 Humanities courses (150h)
- 4 Language and Literature courses (240h)
- 2 Second Language courses (90h)
- 1 Complementary course (45h)
- 1 French Literature course (45h)

### Concentration Courses

You must take 2 concentration courses in French.

- Semester 1
- Composition of Simple Garments (90h)
  - Assembling Principles of Simple Garments (45h)
  - Designer Profession (45h)
  - Graphic Process Application and Visual Presentation (90h)
  - Study and Utilization of Raw Materials (45h)

- Semester 2
- Composition of Various Garments (105h)
  - Assembling Principles of Various Garments (45h)
  - Style Research by Draping (45h)
  - Fashion Concepts (75h)
  - Fashion Phenomena (45h)
  - Research of Raw Materials for the Production of Garments (45h)

- Semester 3
- Composition of Elaborated Garment (60 h) (45 h)
  - Garment Construction and Computer (60 h) (45 h)
  - Fashion and Society (45 h) (45 h)
  - Research of Distinct Fashion Concepts (75 h) (45 h)
  - Fashion Products Development (60 h) (45 h)

- Semester 4
- Garments Production (45h)
  - Technical Files Elaboration (60h)
  - Defining Characteristics of a Collection - Costume (90h)
  - Detailed Planning and Prototypes (105h)
  - Trend Analysis and Presentation (45h)

- Semester 5
- Collection Elaboration and Prototypes (105h)
  - Garment Evaluation - Costume (75h)
  - Fashion Design Integration (120h)
- or
- Fashion Design Profile (120h)
  - Planning and Production (45h)
  - Buying and Selling of Products and Services (45h)

- Semester 6
- Collection for Target Markets - Costume (90h)
  - Presentation and Evaluation of Collections - Costume (75h)
  - Elaboration of the Portfolio (60h)
  - Fashion Promotion (60h)
  - Fashion Design - Integration or Fashion Design Profile (120h)

Put your best foot forward. Join the world of footwear and accessory design at Canada's most important fashion school.

With the specialization in Footwear and Accessory, this DCS program is the first of its kind, opening the doors for you to become an exceptional creator in this industry.

**Career Prospects**

Shoe and accessory design is an important function in the Québec fashion industry.

Training a competent and creative workforce within this industry is essential, which is why we developed this program in collaboration with the ALDO Group, an important player in the fashion ecosystem in Québec and worldwide.

**Career Fields**

- Footwear Designer,
- Fashion Designer,
- Accessory Designer,
- Patternmaker,
- Product Manager.

**Opportunities**

Our unique approach incorporates real-world experience with classroom learning for a hands-on, practical education.

- Collaborate with active industry professionals;
- Sharpen skills in a practical setting;
- Create a portfolio tailored to your career objective

**Cutting-edge Facilities and Equipment**

Experiment with materials, patterns, and designs using cutting-edge, industry-standard equipment, software, and technology in our advanced facilities, including:

- Clothing technology laboratory equipped with:
  - Sublimation printing equipment,
  - Specialized machines for shoes and leather accessories (skiver, walking foot, swivel arm, post bed).
  - Seam sealer (for waterproof seams),
  - Flatlock (for seams on stretch fabrics),
- Patronage, drawing, and cutting room (open to students outside class hours),
- Fully equipped photo studio,
- FLEX classrooms,
- Active learning classrooms,
- And many others!

**Diploma and Accreditation**

This Diploma of College Studies (DCS) is accredited by the ministère de l'Enseignement supérieur of Québec and is internationally recognized.

Holders of a Diploma of College Studies (DCS) can pursue university studies or enter the workforce directly.

Develop your programming skills using a precise product development methodology in the Computer Science Technology – Programming DCS. Learn different approaches to IT project management, including Scrum, to create ready-to-install and ready-to-use applications. Work as part of a team using best practices (Agile, Scrum) and key industry tools (GitLab, GitHub).

### Career Prospects

Montréal's programmer employment is on the rise, spurred by:

- IT service demand,
- Mobile and app tech advancements,
- The digital shift.

In fact, a very high demand in this field prompted Québec's "Opération main-d'œuvre" in 2021.

### Career Fields

- Mobile Developer (Android and IOS Application Developer, Mobile Application Developer, and Application Quality Assurance),
- Web Developer (Web Application Developer, Website Developer (Front-End, Back-End and Full Stack), and Web Services Developer),
- Object-oriented Developer (Object-oriented Application Development (.Net, Java, C++) and Application Quality Assurance),
- IT Professional (IT Advisor, User Interface Designer, Application Tester and IT Trainer).

### Opportunities

Our unique approach incorporates real-world experience with classroom learning for hands-on, practical education.

- Collaborate with active industry professionals;
- Sharpen skills in a practical setting;
- Join our computer club to maintain connections with companies and to attend several events and workshops.

### Cutting-edge Facilities and Equipment

Experiment with industry-standard equipment, software, and technology in our advanced facilities, including:

- FLEX classrooms,
- Active learning classrooms,
- Fully equipped computer lab,
- And many others!

Actively participate and collaborate with teachers using these specialized facilities, boosting your motivation and confidence.

### Diploma and Accreditation

This Diploma of College Studies (DCS) is accredited by the ministère de l'Enseignement supérieur of Québec and is internationally recognized.

Holders of a Diploma of College Studies (DCS) can pursue university studies or enter the workforce directly.
